Dal 1911 Olivari realizza maniglie in Italia,  
all'interno dei propri stabilimenti,  
dove si svolge l'intero ciclo produttivo.  
Partendo da barre in ottone, le maniglie vengono  
stampate, lavorate, smerigliate, lucidate,  
cromate e marchiate al laser.  
Olivari ha ottenuto le certificazioni  
ISO 9001 e ISO 14001  
e si avvale delle tecnologie più evolute,  
ma ha mantenuto tutta la sapienza artigianale  
accumulata in cento anni di storia.

Since 1911 Olivari has been manufacturing handles  
at its own factories in Italy  
where the entire production process takes place.  
Starting with brass billets, the handles are forged, milled,  
polished, buffed, chrome-plated and hallmarked with a laser.  
Olivari has attained ISO 9001  
and ISO 14001 certifications.  
Though it uses the most advanced technology,  
Olivari preserves all the artisanal wisdom  
it has accumulated in 100 years of history.

# Nero opaco profondo

## Deep matt black

NP Nero opaco / Matt black

### Abbiamo ampliato la gamma della finitura nero opaco

---

#### Verniciatura

La verniciatura, effettuata con polvere epossidica, ha uno spessore di circa 80 micron e conferisce al prodotto una finitura molto accattivante. Se usata secondo le istruzioni d'uso e manutenzione, la finitura verniciata ha una vita lunga.

L'elevata frequenza di utilizzo e l'eventuale esposizione agli agenti atmosferici possono ridurre la vita utile del prodotto.

### We have expanded the range of the matt black finish

---

#### Coating

Epoxy-based powder coating, about 80 microns thick, offers a very attractive finish with great longevity, provided the product is used in accordance with the instructions and maintenance guidelines. High-intensity use and exposure to the elements can limit the product's lifespan.
