Placca orizzontale bassa

Low horizontal plate

Adatta per tutte le maniglie del catalogo
Suitable for all catalogue handles

La placca orizzontale bassa è stata ideata come alternativa alla rosetta, per svolgere una duplice funzione. Innanzitutto una funzione estetica: essendo una sorta di sfondo, di proiezione della maniglia, rende l'insieme un tutt'uno integrato, con forte segnalazione e connotazione. In secondo luogo una funzione tecnica: la sua estensione dietro la maniglia impedisce di toccare la porta e quindi evita il rischio di urtarla e rovinarla. Per consentire di utilizzare la placca orizzontale con tutte le maniglie del catalogo, sono state realizzate due versioni: una rettangolare e una ovale.

The low horizontal plate was designed as an alternative to the rosette, to perform a dual function. First of all, an aesthetic function: being a sort of backdrop, an extension of the door handle, it creates the effect of one whole integrated piece, with strong expression and substance. Secondly, a technical function: its presence prevents the door handle from touching the door and therefore avoids the risk of hitting and damaging it. To allow the use of the horizontal plate with all the door handles in the catalogue, two versions have been made: a rectangular and an oval version.

Componenti per porte blindate

Components for armored doors

Il nuovo programma di componenti per porte blindate*, consente di realizzare un coordinamento estetico con le porte interne.

Sul lato interno della porta blindata si potrà installare lo stesso modello di maniglia e la stessa finitura delle porte interne.

Sul lato esterno si potrà scegliere di utilizzare un modello di maniglia e una finitura della porta blindata differenti, in accordo estetico con le esigenze del condominio o dell'architettura della casa, mantenendo le certificazioni di sicurezza della porta blindata.

The new program of armored door components * allows you to create aesthetic coordination with internal doors.

On the inner side of the armored door you can install the same door handle model and the same finish of the internal doors.

On the external side you can choose to use different door handle model and finish for the armored door, in accordance with the aesthetic needs of the condominium or the house architecture, maintaining the safety certifications of the armored door.

camera hotel
Components
for hotel
room doors

I componenti per porte camera hotel sono disponibili anche
in ogni altra FINITURA a catalogo,
previa nostra conferma di fattibilità.

*Components for hotel room doors are also
available in any other FINISH in the catalog,
subject to our confirmation of feasibility.*

Componenti per porte ingresso camera hotel

Components for hotel room entrance doors

Olivari ha messo a punto soluzioni tecniche che permettono di utilizzare le sue maniglie anche sulle porte ingresso camera hotel, in abbinamento ai prodotti delle principali marche di serrature e di sistemi di accesso (es : Accurate, Agb, Saflok, Salto, Schlage, Vingcard, ecc.)

Il progettista ha dunque la possibilità di scegliere le maniglie Olivari in una amplissima gamma di forme e di finiture, per realizzare la sua precisa idea di Interior Design.

Inoltre può avvalersi di maniglie Olivari realizzate con "Superfinish", tecnologia basata sul PVD (Physical Vapor Deposition), dalle elevatissime prestazioni in termini di resistenza all'usura.

Per la definizione della specifica soluzione tecnica occorrente, si raccomanda di contattare il Servizio Commerciale di Olivari, fornendo informazioni in merito alle componenti tecniche a cui la maniglia deve adattarsi.

Olivari has developed technical solutions which allow the use of its door handles on the hotel room entrance doors too, in combination with the products of the main brands of locks and access systems (eg: Accurate, Agb, Saflok, Salto, Schlage, Vingcard, etc.)

The designer has therefore the possibility of choosing Olivari door handles in a very wide range of shapes and finishes to achieve its precise idea of interior design.

He can also take advantage of Olivari door handles made with "Superfinish", a PVD-based technology (Physical Vapor Deposition) with very high performances in terms of wear resistance.

For the definition of the specific technical solution needed, it is recommended to contact the Olivari Business Service, providing information about the technical components which the door handle shall fit.

Boma Ny Monti G.P.A.

Gli architetti Gianemilio Monti, Pietro Monti e Anna Bertarini, persone di grande professionalità e gentilezza, avevano affascinato papà con l'idea di realizzare la prima maniglia in plastica prodotta in Italia. Certamente Boma si è rivelata la più diffusa e apprezzata. Nostro padre ci teneva particolarmente a specificare che era stata utilizzata la resina Durethan della Bayer di Leverkusen, sia perché si trattava di un ottimo materiale plastico, sia perché i tecnici della Bayer si dimostrarono molto disponibili e prodighi di consigli. Per un'azienda come Olivari, da sempre abituata a realizzare in metallo le sue maniglie, la plastica sembrava un azzardo: il mercato l'avrebbe capita e accettata? Fu una scommessa e fu vinta. Oltre a essere stato un ottimo biglietto da visita per il mondo del design, anno dopo anno la Boma è diventata un best-seller. La novità della forma e il colore, uniti all'economicità del materiale e del processo di produzione, hanno determinato un successo durevole: come tale resiste nel tempo. **Antonio Olivari**

The architects Gianemilio Monti, Pietro Monti and Anna Bertarini, highly professional and kind people, intrigued our father with their proposal to make the first plastic handle produced in Italy. Of course Boma turned out to be the most widely used and appreciated. Dad was always particularly keen on specifying that they were made using Durethan resin by the Bayer company from Leverkusen, Germany. He liked to mention that for two reasons. One is that the plastic was an excellent material, and the other was because the technicians at Bayer were so forthcoming and generous with advice. For a company like Olivari, used to making its handles in metal, plastic had seemed risky. Would the market appreciate it? It was a wager, and it was won. Besides being a good calling card in the design world, year after year the Boma was a best-seller. The novelty of shape and colour combined with the inexpensiveness of the material and production process made for long-lasting success, and this has continued to be so over time. **Antonio Olivari**

Chiara Ny Studio Olivari

È un modello universale e un long-seller. Si utilizza principalmente negli uffici, ma anche nelle case moderne. Il diametro sottile, di soli 15 mm di sezione, la rende elegante. È inoltre adatta per ambienti di forte passaggio grazie alla forma che si chiude su se stessa.

This universal model has become a long-selling door handle for offices and modern homes. The thin diameter, in section 15-millimetre only, gives it elegance. Suitable for high-traffic locations thanks to the lever's inward-curving tip.

Il catalogo è soggetto ad aggiornamenti.

Dati, misure o schemi hanno solamente carattere informativo e non sono vincolanti.

Eventuali errori e/o refusi di stampa non costituiscono motivo di contestazione.

Ci riserviamo di apportare qualsiasi modifica ai prodotti e di eliminarli dalla produzione, senza obbligo di preavviso.

In riferimento alle finiture menzionate nel presente catalogo, si precisa che i termini di garanzia validi tra le parti sono solo ed esclusivamente quelli riportati nei documenti contrattuali scambiati tra le stesse.

Modelli e marchi depositati.

Tutti i diritti riservati © OLIVARI B. s.p.a.

I prodotti OLIVARI sono tutelati da brevetto in Europa e in molti paesi extra UE.

Al fine di evitare contraffazioni, marchiamo al laser tutte le maniglie sia con il logo OLIVARI sulla leva che con il codice identificativo del lotto e la data di produzione sul collarino. Questa marcatura indelebile certifica che il prodotto è originale. Invitiamo i clienti a diffidare da prodotti "tipo OLIVARI" e ad acquistare solo prodotti originali "OLIVARI".

The catalog is subject to updates.

Data sheets, measurements or patterns are only for information and are not binding.

Any misprints do not allow raise objections.

We reserve the right to modify and discontinue any products, without prior notice.

With reference to the finishes mentioned in this catalogue, it is hereby specified that the only warranty terms valid between the parties are those expressly set forth in the contractual documents exchanged between them.

Registered trademarks and patented designs.

All rights reserved © Olivari B. s.p.a.

OLIVARI products are registered and patented in Europe and many countries extra UE.

In order to avoid counterfeits, we laser-mark all the door handles both with the OLIVARI logo on the lever and with the identification code of the lot and the date of production on the neck. This indelible marking certifies that the product is original. We invite customers to beware of "OLIVARI type" products and to buy only "OLIVARI" original products.

Questo catalogo è stato stampato su carta patinata opaca Sappi Magno Satin, su carte usomano Fedrigoni Materica Terra Gialla, Favini Crush Agrumi e Favini Crush Cacao, tutte certificate FSC, prodotte con cellulosa proveniente da foreste gestite in maniera sostenibile per l'ambiente. L'energia necessaria per la stampa è stata prodotta da un impianto fotovoltaico. Il contributo all'ambiente è il seguente: CO₂ non immessa in atmosfera 79.645 kg/year, petrolio risparmiato 42.063 l/year, alberi equivalenti 159 trees/year.

This pamphlet was printed on Magno Satin, a silk-surface coated paper by Sappi, and uncoated Materica Terra Gialla paper by Fedrigoni, uncoated Crush Citrus paper and uncoated Crush Cacao paper by Favini – all FSC certified, made with cellulose from sustainably managed forests. The energy for printing was generated by solar photovoltaic power, which cuts carbon emissions by 79,645 kilos per year, and the use of oil by 42,063 litres per year. It saves the equivalent of 159 trees per year.
